

## **ONERECOVERY™ BECOMES FIRST ONLINE AND MOBILE COMMUNITY FOR ADDICTION TREATMENT**

OneRecovery Launches Social Solutioning™ Platform with Leading National Treatment Facilities;  
First to Combine Social-Networking and Clinical Principals to Increase Recovery Rates

**DEL MAR, Calif. – [September 30, 2009]** – OneRecovery, the first social-networking platform that connects peers and professionals, has partnered with leading addiction treatment facilities to leverage online and mobile technology to extend recovery. OneRecovery helps treatment professionals improve outcomes, stay in touch with their alumni and reduce costs.

“We are proud to partner with these leaders in treatment to improve recovery for the millions that suffer from addictions.” said David Metzler, Founder and CEO of OneRecovery. “This will enable us to continue to revolutionize the addiction field by using social media.”

OneRecovery has licensed its Social Solutioning™ platform to ABC Recovery, Hope by the Sea, Illinois Institute for Addiction Recovery at Proctor Hospital, St. John Brighton Hospital and Touchstone Treatment Center. These treatment facilities have integrated OneRecovery’s online and mobile solution into their treatment and alumni management programs to help them maintain the connections and accountability that are proven to help keep their clients in recovery after they leave their facility.

“I believe OneRecovery’s Social Solutioning platform and their constant supportive connectivity are one of the greatest developments in addiction medicine in the past twenty years,” said Rick Zehr, Vice President, Ancillary Services for Proctor Hospital. “It is the important link that keeps our alumni connected in their recovery journey beyond their stay in our treatment center.”

OneRecovery uses scientifically confirmed psychological principals, combined with professional and social accountability from trusted connections, to attain lasting and meaningful behavioral change. By enabling unlimited groups of people to come together for a common goal of improving health and wellness, OneRecovery’s patent-pending Social Solutioning™ platform represents the next generation of current social networking websites.

### **About OneRecovery, Inc.**

OneRecovery™ is an online behavioral modification platform that increases outcome-driven wellness and reduces the cost of health care by using social networking technologies. The company’s patent-pending Social Solutioning™ platform extends the reach and benefits of professional medical and clinical care. OneRecovery, Inc. was founded in 2007 and is a privately held corporation located in Del Mar, California. More information can be found at [www.onerecovery.com](http://www.onerecovery.com).
